- Connected Car Business

Connecting to the Vision | KDDI's local corporations around the world globally connect customers with their future visions

Worldwide Solutions

Using our network of local corporations around the world, we help customers achieve their global visions by deploying a variety of communications-centered services and solutions.

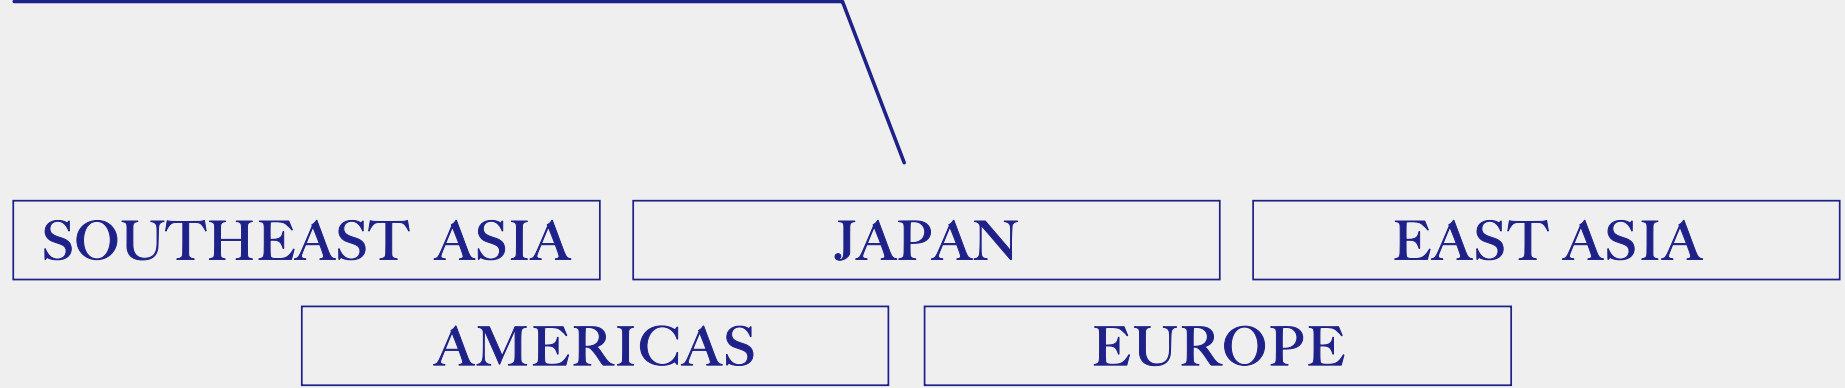

For the growth of your global-scale businesses

- We help you in strengthening governance and security at global sites
- We aid you in achieving consistent digitalization of your global businesses

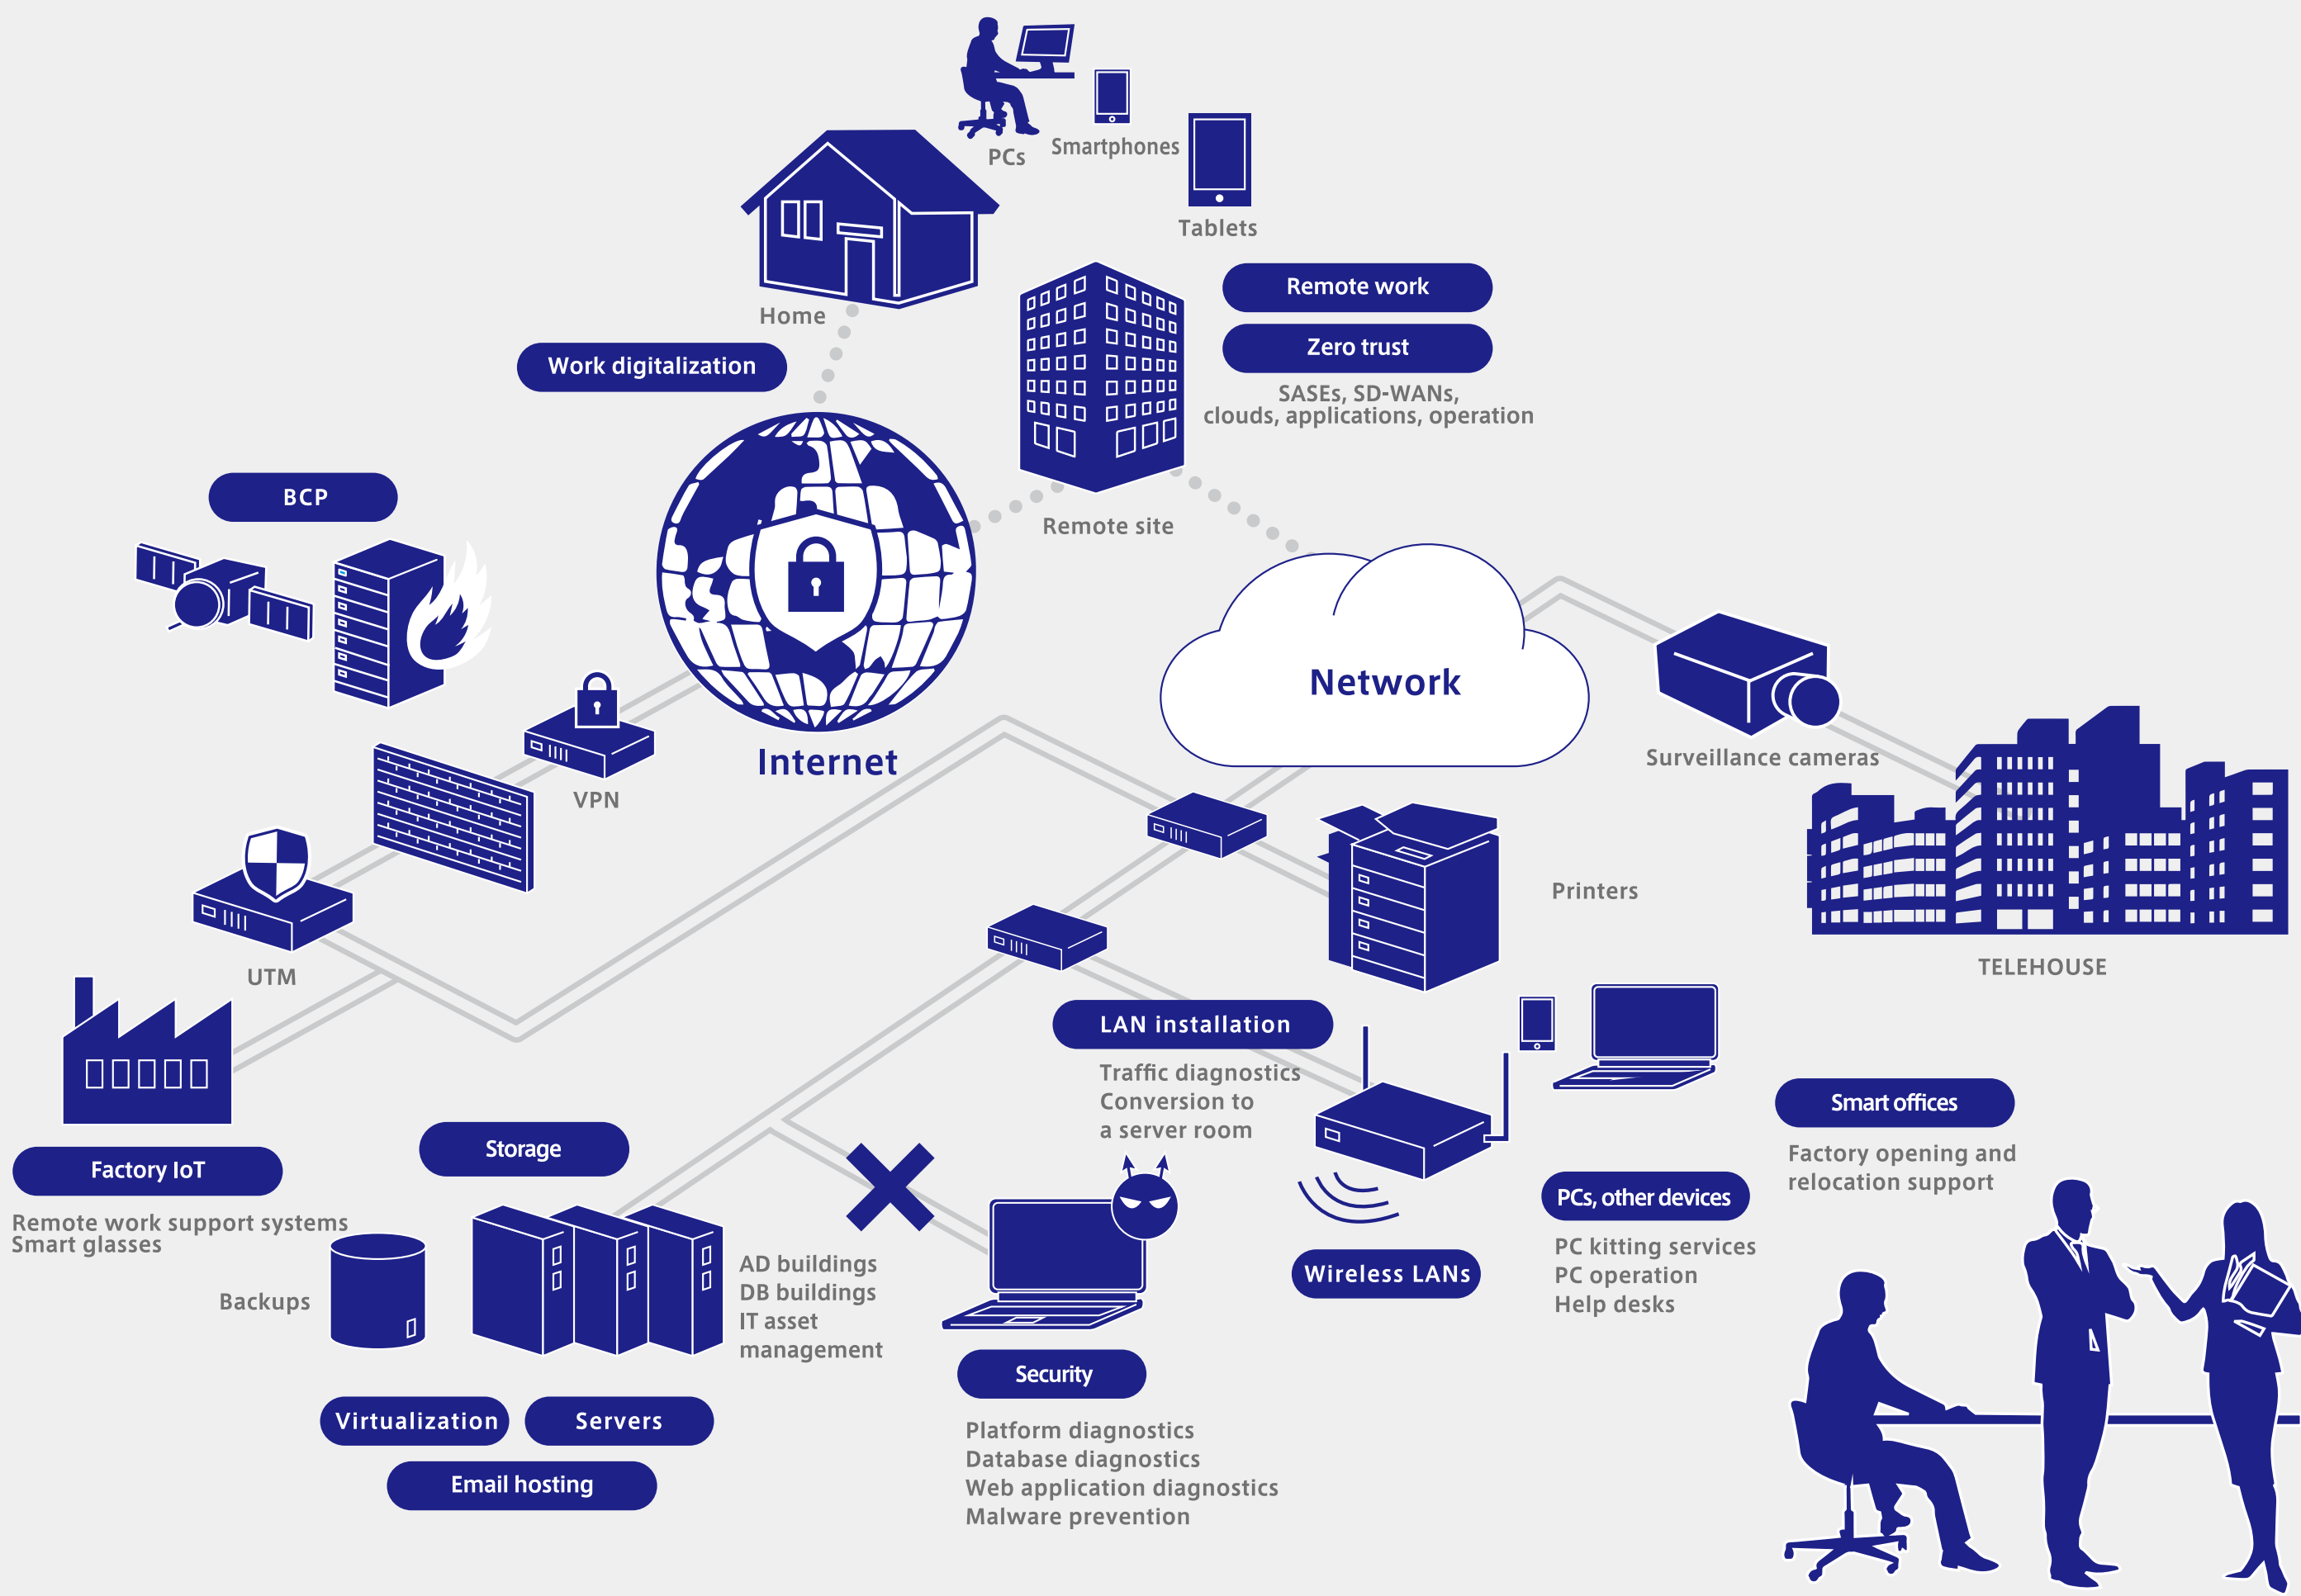

For your regionally-operated projects

- We bring expertise from our local offices to assist you
- Our local experts can handle the challenges unique to each market

Connecting to the Vision

Provision of an expansive range of services for all aspects of global business

1 Business management of overseas sites

For overall, global optimization of your locations, we offer a broad range of support from initial assessments to IT environment establishment for opening or relocating sites.

- | | |
|---|---------------------------|
| IT environment investigations | Site security assessments |
| Smart offices, factory opening/relocation support | Data centers |

2 Zero trust solutions for changing work styles around the world

We provide safe and secure operation through solutions that enable zero trust security without reliance on customer resources.

- | | |
|--------------------------------|---|
| Overseas operation outsourcing | Clouds and applications |
| Security | Internet |
| Closed networks | IDs (authentication, permissions, audits) |
| Devices | |

3 Overseas local business evolution

Our overseas local corporations can contribute directly to the further growth of your overseas businesses with solutions such as business support tools and IoT for manufacturing sites.

- | | |
|--|-----------------------------|
| Factory IT solutions | Office automation |
| Business support applications (CRM/SFA) | Remote work support systems |
| Data collection and analysis through IoT | |
